

**Aim**

**Primary Drivers**

**Secondary Drivers**

**Change Ideas**

**Reducing the Incidence of AKI and reduction of harm from AKI**

**Regional improvement in LOS, Mortality and Readmission over 3 years**

**Reducing regional variation\***

**Prevention**  
**HYDRATION**

**Primary Care**  
**Secondary Care**  
**Community**

- Hydration**
- GPs - hydration leaflets and video roll (young and elderly)
  - Pharmacies—hydration leaflets (young and elderly)
  - Hydration charts and fluid balance in ward areas
  - Structured drinks rounds optimising fluid intake in care homes
  - Heart failure nurses - hydration message
  - Focus on elderly wards
  - Hydration/AKI Champions

**Recognition**  
**DATA**

**Primary Care**  
**Secondary Care**  
**Community**

- Hydration**
- Quarterly updates of Trust Data
  - UTI - safety cross data
  - Feedback of data to organisations
  - Response to outcome of data i.e. amend data pull/analysis
  - Coding and data
  - G/P data - focus on accessing community data
  - Review renal registry data

**Management**  
**CARE PLANNING**

**Primary Care**  
**Secondary Care**  
**Community**

- Hydration**
- Discharge planning from hospital
  - Targeted use of AKI care bundle
  - Follow up of patients discharged from hospital with AKI - hydration leaflet, blood tests etc
  - Patient information on AKI
  - Combining sepsis and AKI bundles - possibility
  - Trust IV Fluid leads—possible link
  - Education (AKI and Hydration) - including uni curriculum

*\*This aim is a guide at present and will be reviewed by the stakeholder group when all Trust AKI data sets are received and analysed.*

**All organisations united to overarching programme rolling out each change idea in own areas**
